

Supporting people in their home or single night 1:1 respite services

Assisting with house cleaning, gardening and meal preparation

Taking people to appointments or early morning shopping

Picking up medicines, shopping or other essentials

Conducting online learning and research as part of SLES or other NDIS goal

Weekly online group programs - like coffee club, guys/girls group, lego creations and more!

Financial Plan Management

We are continuing to deliver continuity of service for our customers and providers, making payments within 3 business days of receiving invoices, wherever possible and prioritising safe working conditions for our staff.

Support Coordination

Support coordinators continue to provide important support at this time. Our staff are working from home and all communication is being conducted via online conferencing or telephone. This means we can keep delivering the excellent quality of support our customers are used to receiving from Leisure Networks.

We are continuing to on-board new customers and have established a telephone-based onboarding process, along with the use of recorded approvals and follow up documents. Leisure Networks has a highly skilled, flexible and trusted workforce available to continue supporting those most vulnerable in our community.
